Subject: New Parkland Parking Garage

To Whom It May Concern:

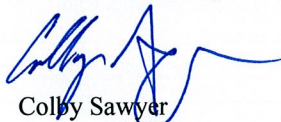

The Whiting-Turner Contracting Company recently constructed a design-build parking garage for the Dallas County Hospital District, dba Parkland Health and Hospital System. NOW Specialties, Inc. was contracted for a custom architectural grating system façade as well as an aluminum composite metal panel system.

Through NOW's attention to detail and full understanding of the design intent, the challenges evident in the design phase were resolved early in the process of custom designing the architectural grating system proposed by the architect. During installation, the timeliness of materials and the quality of workmanship was a true testament to the value of not only NOW's field personnel, but also their project management. NOW's professionalism was evident from the beginning of the bid phase through closeout.

In conclusion, the effort put into this project by the staff at NOW Specialties resulted in turning something as mundane as a parking garage into a beautiful structure in which Whiting-Turner and Parkland Hospital are very pleased. I would recommend NOW Specialties for any job involving aluminum finishes and look forward to working with them in the future.

Sincerely,

**The Whiting-Turner Contracting Company**
